FREQUENCY RESPONSE:	32/20.000 Hz.
SIZE:	65 x 17,2 x 31,7 cm.

Following the current trend of good looking surround speakers, this high power surround or proscenium surround system features LAT2018 (Line Array Technology), and is fitted with six full range speakers to achieve an extreme -3dB coverage throughout the whole audience area. Including our wall bracket LW 7712 SUPPORT and a protection grid, this non-point source distributes the wave at 120° x 40° of horizontal and vertical directivity, making sure its wave reaches the central seats. This same unit is mounted as the medium/treble unit of our LW 4001-BI and LW 4003-BI screen systems, so it delivers a uniform timbre between screen and surround speakers.
