

MAGA ME218LEX

Pro Audio

BASS:	2 x 18" Neodymium, AES 1.600W each
MID:	
TREBLE:	
HORN:	
POWER:	3.200W AES (continuous)
SENSITIVITY:	105 dB (1W@1m) Maximum SPL Power: 142dB peak (1m)
FREQUENCY RESPONSE:	40 - 200Hz (+/- 3 dB)
SIZE:	120.0 x 63.8 x 70.0 cm.

Custom components.

High SPL output (142dB peak).

Latest generation 18" Neodymium loudspeakers, with advanced cooling and lower power compression losses that allow the SPL to be maintained at more constant values within a working period.

Supports a continuous AES 3.200W.

Special rubber feet to avoid vibrations and displacements.

Prepared for horizontal and vertical placement.

Pre-installation of nuts for four 100mm GUITEL® wheels.

Manufactured from 18 layers of Finnish birch.

Woods used complies with the FSC® program which guarantees the control of production and reforestation.

Finished with special Polyurea paint, waterproof and resistant to erosion and degradation.

Rugged construction of panels, assembled with tongue and groove technique and subsequent gluing and pressing.

Hexagonal punched front screen and high-strength epoxy finish.

5-year limited warranty.

Connectors: 2 x Neutrik Speakon 4 Cont., conexi3n +1-1

Recommended Amplification: De 2.000W a 4.000W

Nominal Impedance: 4Ω
